TALLANGATTA

2 1 1

There are so many components that go to make a house a home that suits the budget.

Thus it is with this ; two bedroom timber home with separate dining room and an outdoor entertaining deck.

Baltic pine floors, timber Venetians & Norseman wood heater complement the home.

Proximity to facilities is important and this home is ever so close to schools & shops.

Throw in broadband internet availability, a powered workshop and a delightful garden.

This has got to be the bargain that appeals to buyers wanting to break the rent cycle. Wishing won't break the renting cycle, action will.

Vendors realistic price helps
