## TALLANGATTA

That's right, go back to when homes were crafted and took time to build. You got quality workmanship that stood the test of time, the rooms were a good size and a family could live very comfortably. These homes were usually on large allotments and centrally located.

Fast forward to today and you have that opportunity of buying such a home in prime township location opposite shops, close to medical facilities, walk to churches, sporting facilities & schools, have a yard big enough for Test Cricket on Christmas day with room for spectators or a mini football ground in winter. 3 bedrooms, formal lounge, sep. dining modern kitchen, full bathroom, 2nd toilet and a super shed for the car and handy person.

3  1  1
